RE: BOREHOLE INSPECTION AND MAPPING REPORT

This report tabulates names, grid coordinates and status of Boreholes repaired or constructed by Bongo Development Organisation for UK Donors over the period 2008 to date:

Living Water Africa, (Southampton)

Project Bongo, (Shetland)

St Peters and St Cuthberts, (Linlithgow West Lothian) and

Shirenewton Parsh Church, (Shirenewton, Glos)

Bongo Development Organisation carried out inspection visits and baseline survey over the period December 2014 to February 2015 in Upper East Region. To date 27 boreholes have been repaired and 4 drilled anew, totalling 31 borehole/handpump installations. One, at Bongo Senior High School is automated with a downhole submersible electric pump and above-ground storage tank. All with the exception of #7 at Lungo are fully functional. All the Water and Sanitation Committees (WATSAN) set up during the delivery process are working, with local elders, men, women and children taking part. Significantly there is no occurrence of water-borne disease Cholera, Typhoid reported by the communities. It is perhaps worthy of mention that 111 household latrines have also been provided by Bongo Development Trust of Cambridge, which no doubt contributes to the general increase in health and well-being. These latrines are yet to be mapped.

Most WATSAN bank accounts show funds available to provide for spares and minor repairs.

The well at Lungo has ceased to produce. Two of Bondo's team (Godwin and Julia) are to inspect, and report back. This is an old borehole. It seems the pump is OK, so either the casing has collapsed, the bore caved in, the downhole pump is too deep and is in sand, or the water table has dropped.

The overall and long term success of the program indicates the robust, systematic and effective delivery process developed by Faustina Atipoka Awane and Bongo Development Organisation with the Donors. Particular thanks are due to Living Water Africa in this regard for establishing the planning and reporting framework.

Bongo Development Organisation (BONDO) is deeply grateful to all Donors for their long term and ongoing support.
